

4-Chlorobenzaldehyde

[View Details](#)

Introduction

CAS NO. 104-88-1

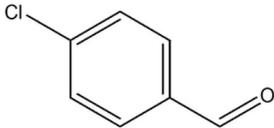

Classification

Agrochemicals->Intermediates

Dyes & Pigments ->Intermediates

Pharmaceutical and Intermediates->Intermediates

Product Description

Product Name	4-Chlorobenzaldehyde
CAS NO.	104-88-1
Molecular Formula	C ₇ H ₅ ClO
Structural Formula	
Molecular Weight	140.57
Purity	≥99%
Moisture	≤0.5%
Melting Point	46-48°C
3-Chlorobenzaldehyde	≤0.4%
4-Chlorobenzoic Acid	≤0.7%
Application	p-chlorobenzaldehyde is the intermediate of fungicide tebuconazole, plant growth regulator Uniconazole, and insecticide chlorfenapyr. It is also used as the intermediate of fenalutamide, phenylamino acid and it is also a dye intermediate.
